

CRAZY 8's STUDY GROUP

By Suzanne Ramsey

Crazy 8's was started in the fall of 1986 with 12 members. The first study was Summer-Winter. Some of the studies have been double-faced honeycomb, deflected double weave, lampas, crackle, shadow weave, huck lace, beidervand, plated twill, satin and swivel.

We have placed several notebooks in the Guild Library.

Crazy 8's is a weaving study group, meeting the third Tuesday of each month at a member's home.

The purpose is to study eight shaft weaving, exchanging samples and draw downs and choosing a different weave structure yearly.
