

DYE STUDY GROUP

By Nancy Baggott, 2009

We organized ourselves in 2005 but actually; there has been a summer dye day since 2002. We try to plan at least two dye days a year, one in the winter/early spring and one in the summer.

The Webster says we meet the third Thursday of each month at the Race Road Fire House, but we aren't really that organized. We have a chat about what we are going to do the month or so before we have a dye day.

Nancy has a list of people to be notified about upcoming dye days. We generally have a project or demo at dye day, so participants who don't know anything about it can come and learn.

We do more acid dyeing than fiber reactive and we also do natural dyes in the summer.
